MATERIALI MATERIALS

Per una corretta valutazione di tonalità e di colore è necessario fare riferimento a campioni fisici, visionabili in showroom.

Tutte le parti in finitura subiscono nel tempo variazioni di tonalità e colore dovute all'effetto della luce.

Le vernici da noi utilizzate sono classificate come atossiche e non contengono piombo, amianti, formaldeide e i loro composti.

Nella finitura in essenza vengono utilizzate vernici acrilico UV e acqua UV, a minima emissione di solventi.

In the showroom we have many samples necessary evaluate in a right way shades and colors.

All finished doors and panels may change tone and colour with time, due to light effect and to the natural aging process and to any other factor which may be present into the environment.

The paints we use are not classified as toxic ones and do not contain lead, asbestos, formaldehyde and its compounds. Acrylic and water UV paints are used in the essence finishing; minimum solvent emission.

LUCI, ACCESSORI *LIGHT, ACCESSORIES*

Le luci, a seconda delle esigenze, vengono disposte sotto i pensili, all'interno dei moduli (basi, pensili e colonne) tra basi e zoccolo, sotto il top, nelle mensole.

Le luci possono essere a luce calda, a luce fredda e a luce neutra. Tra le tipologie di lampada abbiamo le barre luminose, ripiani fluorescenti, mensole luminose oppure i faretti.

L'accensione può essere manuale oppure a sfioramento.

Lights are arranged below the wall units, inside modules (base, wall units and tall units) between bases and plinth, below the top, into the shelves.

The lights can be warm light, cold light and neutral light.

There are light bars, fluorescent lighted shelves and spotlights.

Switching systems can be with soft touch electronic switch or manual switch.

Le attrezzature ausiliare variano dalle barre portaoggetti con poggiamestoli, portacoltelli, portascottex, portapiatti, leggio per libro, portautensili, alle pattumiere a più scomparti per la raccolta differenziata.

Vasta gamma di divisori per cassetti e cestoni in legno o metalli: portabottiglie per cassettoni, portaposate per cassettoni e portaposate doppio scorrevole, portaspezie, portapiatti e taglierina per pellicola e stagnola.

The auxiliary equipment are: bars storage with spoon holder, knife holder, paper holder, plate racks, book holder, tool holder, rubbish with compartments for recycling.
Wide range of wood or metal partition for drawers and baskets: bottle rack, cutlery tray, spice racks, plate racks, film dispenser and foil dispenser.

ANTE, MANIGLIE DOORS, HANDLES

Le maniglie sono disponibili in diverse dimensioni e materiali.
Alcune ante presentano la maniglia integrata: anta con maniglia ad incavo, con apertura a gola, meccanismo di apertura a pressione e con fresatura ad incavo per apertura.

*Handles are available in different sizes and materials.
Some doors have integrated handle: built-in handle, opening throat, door with push-to-open devices and door with grooved-in handle.*

PIANI *WORKTOP*

I top sono realizzabili in diversi materiali: laminato, marmi pietre e graniti, okite e quarzi, ceramica, solid top, corian e metalli.

Vi è la possibilità di scegliere tra top con alzatina, top con fondale e top con fondale curvato unito.

Quest'ultimo lo si può ottenere solo con il piano in laminato plastico, corian e acciaio inox.

Il fondale unito al top con gli altri materiali è giuntato e sigillato.

Lo spessore del top può variare dai 2 cm ai 7 cm, mentre l'alzatina è alta 5 cm. L'altezza del fondale invece varia dai 30 cm sino ad arrivare a congiungersi col pensile.

Si eseguono lavorazioni di top su dima.

Qui di seguito vi è un esempio di possibilità di adattamento delle basi cilindriche a muri con angolazioni diverse.

The top can be made in different materials: laminate, marble, stone and granite, okite and quartz, ceramic, solid top, corian and metals.

Is possible choose between top with borders, top with bascksplash and top with curved backsplash; the top with curved backsplash can only be achieved with plastic laminate top, corian and inox steel.

The backsplash in the other materials is joined and sealed to the top.

The thickness of the top can range from 2 cm to 7 cm, while the border is high 5 cm. The height of the backsplash instead varies from 30 cm to 50/60 cm.

Is possible the production of tops with customized template.

Below there is an example of a possibility of adaptation of the cylindrical bases with different wall corners.

MODULARITA' SIZE

Le nostre cucine sono un prodotto di ottima qualità perchè realizzati con materiali atossici attenti all'ambiente.

La struttura interna è realizzata in pannelli di nobilitato bianco spessore mm.18 classe E1 ed idrofughi.

Bordi posteriori e anteriori in ABS in tinta.

Le ante hanno spessore mm. 2, (in alcuni casi sp. mm. 3) sono realizzate in Medium Density (MDF) che viene poi impiallacciato oppure laccato a seconda dei casi.

Possibilità di richiedere i fianchi finiti a vista in tutte le finiture.

Cerniere e guide con chiusura ammortizzata.

Cassetti, cassettoni e ante senza maniglie utilizzano il sistema d'apertura push & pull.

Sul fondo dei contenitori base sottolavello è posizionata una lamiera per proteggere il fondo contro eventuali infiltrazioni d'acqua.

Le zoccolature sono asportabili e realizzate in alluminio, laminato, marmo e laccato. E' possibile inserire nello zoccolo una griglia d'aerazione per elettrodomestici.

Our kitchens are a high quality product because it made with non-toxic material.

The internal structure is made with white melamine panels of 18 mm thickness E1 class, waterproof.

Front and back edges are in ABS.

The doors have a thickness mm. 2, (in some cases sp. Mm. 3) are made in medium density (MDF), which is then veneered or lacquered depending on the case.

Is possible to request the sides finished views in all finishes.

With soft closing hinges and guides.

For drawers, chests of drawers and doors without handles is used push & pull opening.

On the bottom of sink base is placed a sheet to protect against i water infiltration.

Plinth are removable and made in aluminum, laminate, marble and lacquered. Is possible put a ventilation grid for appliances into the plinth.

BASI BASE UNITS

Basi con ante e attrezzature varie, con cassetti, cassettoni, portabottiglie, dispensa, cestelli angolari, elementi a giorno, portapiatti e terminali.

Le basi sono disponibili nelle misure 15, 30, 40, 45, 60, 80, 90, 105, 120 cm.

Bases units with doors and other equipment, with drawers, chests, bottle holder, pantry, corner racks, open elements, plate racks and terminals.

The bases are available in sizes 15, 30, 40, 45, 60, 80, 90, 105, 120 cm.

Basi con predisposizione per elettrodomestici, disponibili nelle misure di 45, 60, 80, 90, 105, 120 cm.

Bases units for appliances, available in sizes of 45, 60, 80, 90, 105, 120 cm.

PENSILI WALL UNITS

Pensili in linea e ad angolo con aperture di varie tipologie: ante a battente, basculari, a soffietto e vetrine.

Pensili a giorno e possibilità di terminale a giorno.

Attrezzatura interna: scolapiatti e piattai.

I pensili sono disponibili nelle misure 15, 30, 40, 45, 60, 80, 90, 105, 120 cm.

Le altezze disponibili sono invece 40, 60, 70, 100, 125.

Possibilità di sovrapporre al pensile mensole e dei sopralzi.

Wall units aligned and angle with openings of various types: double doors, balancine door, bellows and wall units with glass door.

Open wall units and end open wall units.

Internal equipment: plate rack.

The wall units are available in sizes 15, 30, 40, 45, 60, 80, 90, 105, 120 cm.

Eight are available in sizes 40, 60, 70, 100, 125 cm.

Possibility to place on wall units shelves and top units.

Pensili per cappa aspirante disponibili nelle misure di 60, 90 cm.
Cappe esterne.

*Wall units for fume hood available in sizes of 60, 90 cm.
Hoods external.*

MENSOLE E CARRELLI SHELVES AND TROLLEY

Mensole, mensole con barre inox, mensole in vetro, griglie con barre inox poggiamestoli, barre inox per appenderia.

Carrelli ausiliari con ribalta apribile e tagliere.

Shelves, shelves with stainless steel bar, glass shelves, grids with steel, stainless steel bars for hanging rail.

Auxiliary trolley with folding and sliding cutting board.

COLONNE TALL UNITS

Le colonne sono disponibili nelle misure 40, 45, 60, 90, 104, 109 e 120 cm.

Le altezze sono disponibili nelle misure 120, 150, 210, 240, 265 cm.

Le colonne possono essere in linea oppure angolari.

E' possibile posizionare sopra le colonne dei sopralzi.

Possibilità di colonne a giorno ed elementi terminali a giorno.

Aperture di varie tipologie: ante a battente, scorrevole, estraibile, con ante a soffietto e ante a vela.

Colonne attrezzate con cassetti, cassettoni, cestelli estraibili, cestelli a traino, portabottiglie, ripiani in filo cromato, cassetti ad angolo e postazione stiro estraibile.

Tall units are available in sizes 40, 45, 60, 90, 104, 109 and 120 cm.

The heights are available in sizes 120, 150, 210, 240, 265 cm.

Tall units can be in line or corner.

Openings of various types: hinged doors, sliding, removable, with bi-fold doors and sailing doors.

Columns equipped with drawers, chests of drawers, pull-out baskets, baskets in tow, bottle holder, chrome plated wire shelves, drawers corner and ironing workstation removable.
